

# Weekly Coal Production

DOE/EIA-0218(93-43)  
Production for Week Ended:  
October 23, 1993

# EIA

Energy  
Information  
Administration

**SUMMARY**—As estimated by the Energy Information Administration (EIA) from data on railroad car loadings, U.S. coal production totaled 20 million short tons during the week ended October 23, 1993. This was about the same as in the previous week, and as in the comparable week in 1992. Production east of the Mississippi River totaled 11 million short tons, and production west of the Mississippi River totaled 8 million short tons.

Negotiations between the Bituminous Coal Operators' Association and the United Mine Workers of America broke off on October 22, 1993.

\* For quantity data, the value of the number is less than 0.5 thousand short tons. For percentage calculations, the absolute value of the number is less than 0.05 percent.

Notes: 1993 data are preliminary. Total may not equal sum of components because of independent rounding. Bituminous and Lignite Total includes bituminous coal, subbituminous coal, and lignite. The States in the Appalachian Region are Alabama, Eastern Kentucky, Maryland, Ohio, Pennsylvania, Tennessee, Virginia, and West Virginia. The Interior Region States are Arkansas, Illinois, Indiana, Iowa, Kansas, Western Kentucky, Louisiana, Missouri, Oklahoma, and Texas. The Western Region States are Alaska, Arizona, California, Colorado, Montana, New Mexico, North Dakota, Utah, Washington, and Wyoming.
